Les Ward
General Manager
PICO POWER PROJECT
1115 Space Park Drive
Santa Clara, CA 95054-3432

Subject: PICO POWER PROJECT (02-AFC-3C)
Approval of Petition to Add Construction Laydown Areas (Reed St. and
Duane Ave.)

Dear Mr. Ward:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed Silicon Valley Power's petition, received on December 29, 2003, requesting the addition of construction laydown and parking areas at 888 Reed Street and 1010 Duane Avenue. Staff determined that the petition met the criteria of section 1769(a)(2), and mailed the enclosed "Notice of Insignificant Project Change" to the Energy Commission's post-certification project mailing list on January 20, 2004.

The Energy Commission did not receive any public comments regarding this requested project change within the 14-day public review period as specified in section 1769(a)(2). Therefore, the requested modification is approved. As you are aware, this temporary land use is subject to all applicable Conditions of Certification, including implementation of the construction-phase air quality conditions of certification [e.g., AQ-C3(j)], and revisions to the Storm Water Pollution Prevention Plan (S&W-1) to include these properties.

If you have any questions, please call me at (916) 654-3864, or e-mail me at ntronaas@energy.state.ca.us.

Sincerely,

Nancy Tronaas
Compliance Project Manager
